

The Draft Kit

Label Size Sample Sheet

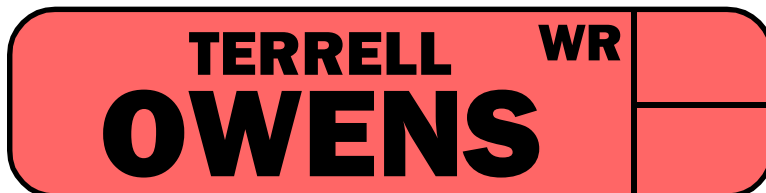

It is important to note that the most important dimension of a label is it's length as the names are longer than they are high and the more length the larger the font that can be used. A 1 1/2 by 3 inch label which might be bigger in terms of total square inches, would have to use a smaller font because it is only 3 inches wide.

Personal Size Labels
1/2 inch by 1 3/4 inches
